

SkinPad

Hyperrealistic Suturing Pad
With bleeding feature

SkinPad represents a leap forward in surgical training, setting new standards for realism and effectiveness.

SkinPad combines softness with incredible durability: repeat an exercise by removing a suture thread and redoing it on the same incision.

Surgical Realism

The most realistic suturing pad on the market, with bleeding feature and accurate anatomy

Unlimited use

SkinPad is incredibly resistant and ensures limitless surgical training

Surgical Instruments & Threads

Macrosurgical Instruments and Threads are included in the pack

Free Educational Contents

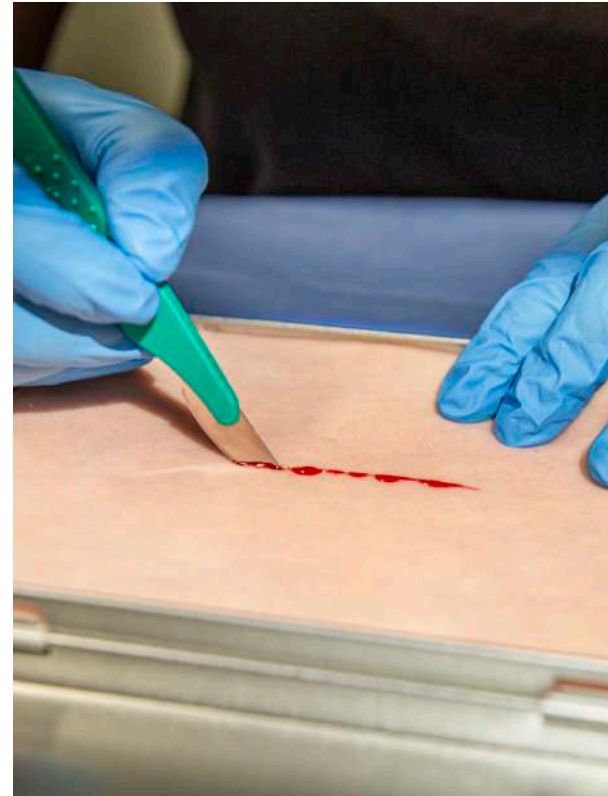

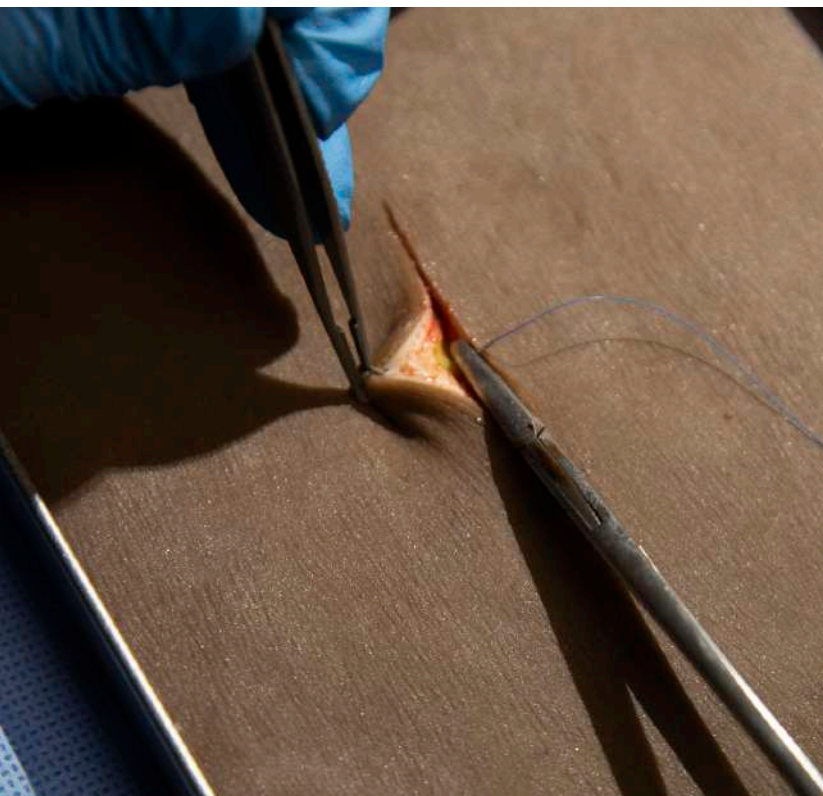

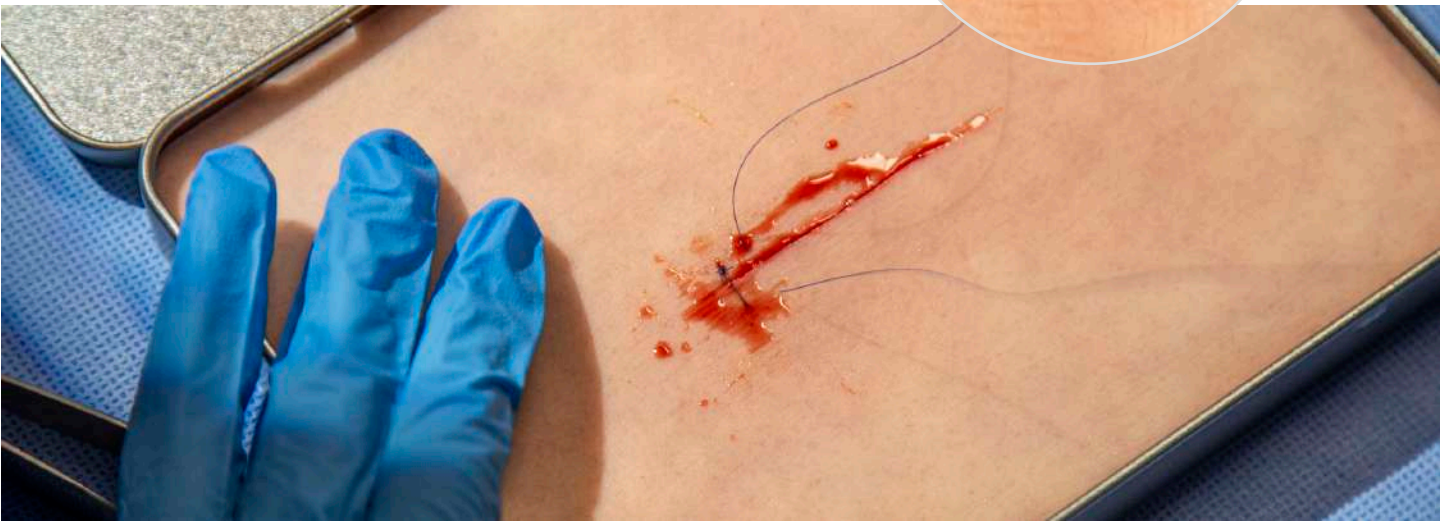

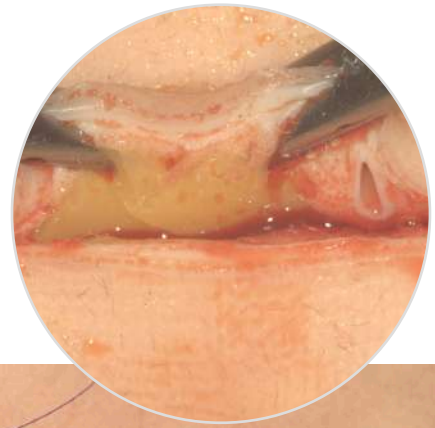

Get the Skill Series App to learn different suturing Techniques on SkinPad

The highest level of detail

Experience surgical training that mirrors real-life scenarios, setting a new standard in medical education.

All the Anatomical Layers of a real skin:

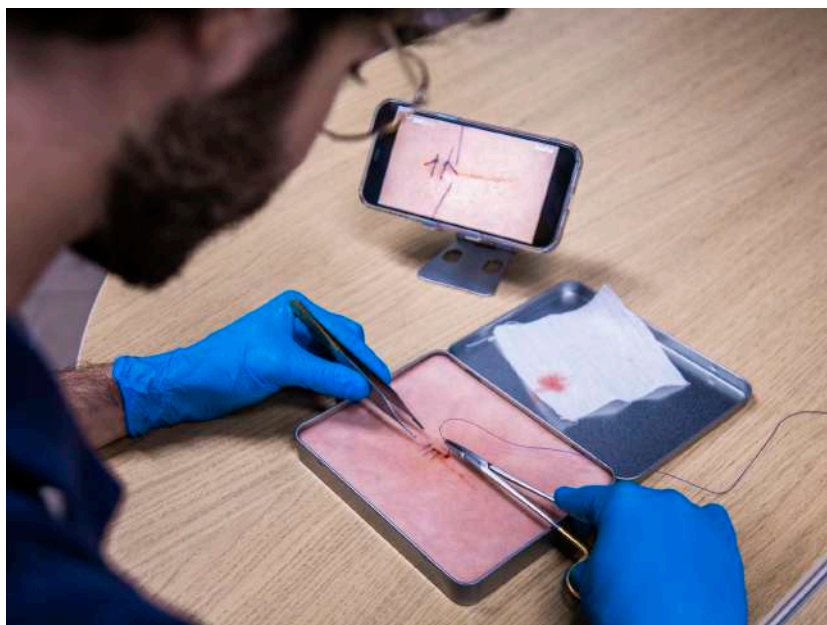

- Skin
- Subcutaneous layer
- Bleeding vessels
- Dermis
- Adipose tissue
- Muscle

Skill Series App

A life-like Pad combined with an incredible App

SkinPad is a comprehensive training system made of an advanced training Pad combined with the Skill Series App, a complete video library of suturing techniques.
